

# Module 1 Assignment

## **Module 1 (Conceptual Framework to Classism)**

Students will incorporate data science instruction to introduce students to using SPSS. This project will require students to identify an essay in the assigned text, associate one of the 2 data sets (**GSS08** or **STATES10**), briefly analyze, and submit a 3-page summation (including basic graph/table tools).

This introductory assignment will focus on basic statistical analyses incorporating lectures that align social justice movements to supportive data sciences.
